

Through an enquiry approach, our curriculum is responsive. We nurture, develop and build on children’s interests and passions; make links to their local environment so that learning is relevant, lifelong and builds the broad skills and knowledge for the world ahead. With an ethical focus in which children learn about rights, through rights and for rights, our children have the confidence to question the world around them, allowing them to be active participants to shape their community. Our children are stewards of the environment, developing strong core moral values which celebrates openness, diversity, and equity.

This document provides an overview of the planned sequence of learning for a term. Actual teaching and timings may differ as teachers adapt teaching and learning opportunities as they teach to ensure teaching is responsive to children’s needs.

Note: As referenced in the Statutory Framework for the Early Years Foundation Stage (DfE April 2017), the EYFS seeks to provide a secure foundation through learning and development opportunities which are planned around the needs and interests of each individual child and are assessed and reviewed regularly. This document presents an overview of enquiries/provision that we intend to provide over the course of the year. The implementation of these learning opportunities may differ, depending on the needs and interests of the children throughout the year which are regularly assessed and reviewed.

Subject/Area/Focus	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8
Key Events/ Assessments		World book day	Science week	Neurodiversity week	World Autism acceptance week	PTA disco
