## Year 2 Term 3

### Where in the world are we?

#### Key knowledge:

1. The equator is an imaginary line that goes around the middle of the world. It cuts our world in half into the north hemisphere and the south hemisphere.
2. There are seven continents: Europe, Africa, Asia, Australia, North America and South America.
3. There are five oceans: The Atlantic, Pacific, Indian, Southern and Arctic.
4. Europe is the continent we live in. The climate changes depending on where you are.

<b>Europe</b>	<b>Africa</b>	<b>Asia</b>
The Alps Pyrenees Eiffel Tower Leaning Tower of Pisa	The Pyramids The Sahara Desert The River Nile Victoria Falls	The Himalayas Mount Everest The Great Wall of China
<b>Australia</b>	<b>North America</b>	<b>South America</b>
The Great Barrier Reef Uluru Sydney Opera House	Niagra Falls The Rocky Mountains Statue of Liberty Grand Canyon The White House	Andes Mountain range Amazon Rainforest Machu Picchu Rio carnival
	<b>Antarctica</b>	
	McMurdo research centre Mount Erebus Antarctic ice sheet Ice bergs	

#### Skills - We are geographers!

1. Locate the locations of continents, countries and oceans on world maps.
2. Observe and collect information from photos, aerial images and atlases.
3. Construct simple maps, labelled diagrams and graphs.
