

# Meet your teacher!

Hedgehogs! I am super excited to be one of your teachers next year. Having seen you all around school for years, teaching you Monday-Wednesday. I already know lots of your faces but can't wait to get to know you better.

In Year Four, we have some exciting enquiry topics, such as the Romans and WW2, as well as a project exploring the impact of climate change. We read some really fantastic books, and you will also become times tables whizzes (even more so than you already are).

## In your new classroom...

Your new classroom will feel quite similar to your Year 3 one which should feel comforting. We have a writing, maths and class board as well as our book corner. We have our visual timetable on the panel at the front of the class and front facing tables.

## About me

I have been teaching since 2019 and have previously taught Years 1-3. This will be my third year in Year 4 – it really is a great year and I hope you'll love it as much as I do.

On my days off, I enjoy spending time with family and friends. If I have time to myself, I love reading with a cup of tea and some biscuits (but this doesn't happen very often)! I absolutely love sunshine and my favourite place to be is by the sea – in another life I'd love to live by the beach.
