

Meet your teacher!

Bumblebees! I am super excited to be one of your teachers next year. Having seen you all around school for years, I already know lots of your faces but can't wait to get to know you better.

In Year Four, we have some exciting enquiry topics, such as the Romans and WW2, as well as some great books to get our teeth into. We will also be becoming absolute whizzes at our times tables!

In your new classroom...

Your classroom will feel quite similar to your Year 3 one, which should feel quite comforting. We have a writing, maths and class board as well as our book corner where we can find our Canon of Literature. We have front facing tables, with our Y3/4 spellings stuck on so we can make sure we are spelling them correctly in our writing. At the back of the classroom, we have our sink area, class books and drawers.

About me

I have been teaching since 2019 and have previously taught Years 1-3. This will be my second year in Year 4 – it really is a great year and I hope you'll love it as much as I do.

On my days off, I enjoy spending time with my toddler and husband to be as well as our family and friends. If I have time to myself, I love reading with a cup of tea and some biscuits (but this doesn't happen very often!) My favourite place to be is by the sea – in another life I'd love to live by the beach.
