

# Meet your teacher!

Hello, my name is Jim (though I am really called James shhhh!). Year 5 is an amazing time filled with so many exciting projects and so much incredible learning. We are in for a phenomenal journey together.

In Year 5, we get up to all kinds of activities such as making fidget spinners, filming movies and dissecting plants.

I am really looking forward to getting started with Puffins class next September!

## In your new classroom...

You will find some of my favourite books in our book corner such as Beetle Boy, The Last Wild and The house with Chicken Legs. When you next see me, let me know what is your favourite book to read - I'd love to know!

I like to keep things very organised and have a reputation around school for being tidy. I can be quite, er-hem, fussy about things. For example, I like to make sure you keep all the pencils facing upwards so you don't blunt the tips and all the pens facing down to make the ink last longer. (I also may count them all at the end of every day - no really).

## About me

I have been teaching for over ten years now and I love helping children achieve their best. I really enjoy martial arts. So much so in fact I lived, and studied, in Japan for three years. I also love computer games (just don't tell the other teachers!)

One of my favourite things to do is ride my motorbike. On my weekend, I'll be nose deep in a fantasy book of some kind or busy on two wheels somewhere.

I can't wait to learn all about each of you in Puffin class!
