

Through an enquiry approach, our curriculum is responsive. We nurture, develop and build on children's interests and passions; make links to their local environment so that learning is relevant, lifelong and builds the broad skills and knowledge for the world ahead. With an ethical focus in which children learn about rights, through rights and for rights, our children have the confidence to question the world around them, allowing them to be active participants to shape their community. Our children are stewards of the environment, developing strong core moral values which celebrates openness, diversity, and equity.

This document provides an overview of the planned sequence of learning for a term. Actual teaching and timings may differ as teachers adapt teaching and learning opportunities as they teach to ensure teaching is responsive to children's needs.

Science	What do I already know?	Describe the movement of the Earth and other planets relative to the Sun in the Solar System.	Describe the movement of the Moon relative to the Earth.	Describe the Sun, Earth and Moon as approximately spherical bodies.	Explore the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.	Enquiry project.	Enquiry project.	What have I learnt?
Geography <i>Why does time shift?</i>		1.Line of longitude: -Runs from the top of the earth to the bottom of the earth: North Pole to South Pole. -Shows how far east or west a place is. -Measured in °. -0° is called the Prime Meridian and runs through Greenwich in London.	2.Line of latitude: -Runs across the earth. -Parallel to the equator. -Show how far north or south a place is. -Measured in °. -0° is at the equator.	3.Northern hemisphere: -Anything lying north of the equator -Hemi= Greek for half -Sphere = ball	4.Southern hemisphere: -Anything lying south of the equator (as above)	5.Time Zones: -Time zones are divided by imaginary lines called meridians which run from the North Pole to the South Pole (along the lines of longitude) -There is an imaginary line running through the UK called the Prime Meridian. It runs through a place in	6.Compare time zones: -The Earth rotates on its axis, the Sun only shines on the side of the Earth that it is facing. -It is daytime for the parts of the Earth that have the sun shining on them. -It is night-time for places that are on the opposite side of the Earth and are in the shade. -As it is night in some parts of the world while it is day in other parts, different places in the world have different times. -The world is divided into 24 different time zones. One for each hour in a day.	

						London called Greenwich. -The Prime Meridian splits the world into eastern and western hemispheres. -Time in countries to the east of the Prime Meridian is always in front of that in the UK. -Time in countries to the west of the Prime Meridian is always behind that of the UK.	-Very large countries that are spread out across many time zones, such as Russia or the USA, are divided into separate time zones. Most smaller countries keep to the same time zone even if part of them falls outside a meridian line.		
Art & Design	<i>To explore artists who use their drawing skills to make objects, and I can share my responses to their work, thinking about their intention and outcome.</i>	<i>To use my sketchbook to record and reflect, collecting the ideas and approaches I like which I see other artists use.</i>	<i>To use line, mark making, tonal values, colour, shape and composition to make my work interesting.</i>	<i>To use negative space and the grid method to help me see and draw.</i>	To explore typography and design lettering which is fit for purpose.	To transform my drawing into a three dimensional object. I can share my work with others, and talk about my intention and the outcome. I can listen to their response and take their	To appreciate the work of my classmates. I can listen to their intentions and share my response to their work.	To photograph my three dimensional work, thinking about presentation, lighting, focus and composition.
